(f) Requirements for Entry Permits and Trespass: No person shall enter upon any area listed in sections 550 or 551 of this Title where the department requires a valid daily entry permit without the required entry permit in their immediate possession, or unless otherwise authorized by the department. Entry or exit must be made at locations designated by the department. Daily entry permits are required to hunt during the waterfowl and pheasant seasons on Type A and B areas. During this period daily entry permits must be returned to the checking stations where issued within one and one half hours after sunset unless otherwise designated in 551(g). Daily entry permits also may be required at other times on Type A and B areas or on Type C areas (see subsection 551(q)).

(g) Season Pass, Two-day Pass, and Entry Permits:

(1) To obtain a daily entry permit to hunt during the waterfowl and pheasant seasons on Type A areas, possession of a Type A season pass, a Type A two-day pass, or a one-day entry permit is required, except as provided in subsection 551(q). Season passes and two-day passes may be issued by department offices and license agents. The department may issue season passes, two-day passes and one-day entry permits at Type A checking stations. Persons hunting under the authority of a junior hunting license are exempt from these permit and pass requirements and shall be issued a no-fee entry permit.

(2) A Type A season pass shall be issued upon payment of the fee specified in Section 702. A Type B season pass shall be issued upon payment of the fee specified in Section 702.

(h) Issuance of One-day Entry Permits:

(1) Hunters with season passes shall not receive priority in the issuance of daily entry permits over hunters who do not have season passes.

(2) Holders of junior hunting licenses will be issued entry permits only when accompanied by an adult. An adult is defined as a person at least 18 years old. An adult may be accompanied by up to two junior hunters. On Type A and B areas, adults must accompany junior hunters in the field. On Type A and B areas when a non-shooter accompanies a junior hunter, the non-shooter will be considered a hunter possessing valid resident or nonresident hunting license in establishing his or her place in line. Persons 16 or 17 years of age in possession of a valid resident or nonresident hunting license will be issued entry permits and may hunt by themselves, but may not be accompanied by junior hunters.

(3) Entry permits must be returned, as required by the department, when departing the area. Hunters are required to report the number and species of all game taken, as required by the department, before departing the area. All game taken on a State or Federal wildlife area shall be shown to any department employee upon request before leaving the area.

(4) No person shall apply for, obtain, use, or have in his or her possession while hunting, any one-day entry permit which has not been issued to that person by the department or which is a duplicate, forgery, or alteration of an official department form; or which has been obtained by use of a non-validated or fraudulent application or advance reservation form. Any person who violates this section shall be barred from all State-operated areas for one calendar year following the date of discovery of the violation by the department.

(5) Any person who violates regulations governing drawing procedures for hunting opportunities on State-operated areas, other than reservation drawings described in subsection 551(j), shall not be issued a permit for that day, or shall be ejected for that day if a permit has been issued, and shall be denied entry for the remainder of the season.

(i) Daily Entry Permit Revocations, Refusals, and Ejections: On Type A and Type B areas the department is authorized to refuse to issue a one-day entry permit to anyone and to revoke this permit and eject the holder forthwith from the area for disorderly conduct, intoxication, or for any other reason when it appears that the general safety or welfare of the area, or persons thereon, is endangered. Decision of the department employee assigned management or enforcement responsibilities for the area in such respect shall be final. Any person whose entry permit has been revoked shall not be entitled to hunt or access any State operated hunt area or on any wildlife area for one calendar year from the date of discovery. Persons affected by this section may appeal such actions to the commission.

(j) Reservations:

(1) Advance reservations for waterfowl and pheasant hunting will be available for certain areas as specified under subsections 551(q) and 552(a).

(2) Reservations shall be issued by random drawing. The department shall make applications available to the public through license agents and department offices. Applicants must possess a California resident, junior or nonresident hunting license valid for the waterfowl hunting season for which they are applying. Two-day nonresident hunting licenses shall not be used to apply for reservation drawings. To be included in a reservation drawing, applications must be received by the department at the address specified on the application at least 17 days prior to the hunt date. Late, incomplete, or incorrect applications will not be included in the drawing. The fee to apply for a reservation is specified in Section 702. Hunters may apply for reservations using one or more of the following applications:

(A) One-Choice Reservation Application

(B) Five-Choice Reservation Application

(C) Season-Long Reservation Application - hunters may apply for every available hunt date for one or more areas by completing a season-long reservation application form and returning it with the appropriate payment to the department at the address specified on the application.

(D) Reservation application fees are not refundable.

(3) Multiple Applications:

(A) The applicant is limited to one application for each area for each authorized shoot date as specified under subsections 551(q) and 552(a), unless otherwise specified in subsection 551(q).

(B) The department may eliminate from any drawing all applications not in compliance with these regulations. Persons who submit more than one application for the same shoot date for the same area may be barred from hunting on State-operated areas for a period of one year following the date of discovery of the violation by the department. Any reservation issued to any person as a result of such improper submission, or to any person already barred from the State-operated areas, shall be void and of no force and effect.

(4) Priorities: Unless otherwise stated on the reservation or on information mailed with the reservation, upon paying the appropriate fee for a one-day entry permit or presenting a two-day pass or season pass, successful applicants shall be granted a one-day entry permit during the waterfowl or pheasant season, a one-day permit shall be granted, however, only if the applicant's reservation was issued by the department in the applicant's name and is for the area requested. Applicants must enter, at the appropriate checking station on the assigned or stated hunt date. Unless otherwise provided for, the reservation will expire one and one-half hours before waterfowl shoot time. For some areas, reservations will be numbered by the department in the order in which they are drawn. These reservations will be accepted at checking stations in that order, only if the reservation holder is present at the time the number is called.

(5) Except as provided for in subsections 551(j)(6) or 551(q), or Section 552, a reservation shall assure entry for up to six persons. No more than two may be adult (see subsection 551(h)(2)) hunters who have valid resident or nonresident licenses and no more than two may be persons 16 or 17 years of age in possession of a valid resident or nonresident hunting license (see subsection 551(h)(2)). Each adult may be accompanied by up to two hunters holding junior licenses or two non-shooters irrespective of age, or one of each. Non-shooters are defined as persons who wish to accompany a permittee in the field or remain at a designated parking space. Non-shooters shall not discharge or possess ammunition or a firearm on the area.

(6) If hunting a special blind area, a reservation will assure entry of no more persons (adult hunters, junior hunters, and/or nonshooters) than will fill the blind.

(7) Unless otherwise provided for in this section, the advance reservation system only serves to assure entry onto the area and does not necessarily constitute a method for prioritization over other users.

(k) Deferred Openings: When the department considers such deferment desirable to protect agricultural crops from waterfowl, it is hereby authorized and directed to defer opening to public access any area until in the opinion of the department the danger of crop damage in the immediate region is abated.

(l) Species Allowed:

(1) On Type A and Type B areas, only ducks, geese, coots, moorhens, and snipe which are then in season may be legally taken by permittees on designated shooting days during the open waterfowl hunting season; unless otherwise provided under this section or Section 552 of these regulations.

(2) Pheasant Hunting: Pheasant hunting shall be permitted as provided for in subsection 551(q) and Section 552. The regional manager may authorize junior pheasant hunts during or outside the general pheasant season.

(3) Hunting on Type C areas General: Except as provided for in subsection 551(q), hunting is permitted for each authorized species allowed to be hunted on each area, during the open season of that species.

(4) Turkey Hunting: Turkey hunting shall be permitted as provided for in subsection 551(q) and Section 552. The regional manager may authorize junior turkey hunts on state wildlife areas during the regular season.

(m) Assigned Hunting Zones: In order to assure proper hunter dispersal and to promote safety, the department may subdivide the open hunting portion of any Type A or Type B area into zones and assign hunters to these zones or designate where hunters shall park.

(n) Posting Closed Areas: Any portion of any State wildlife area and any adjoining lands under control of the department, may be closed to hunting or public access by the department by posting such lands with signs at least five (5) to the mile.

(o) Penalties: Failure to comply with regulations contained in sections 550, 551, or 552 may result in any or all of the following:

(1) denial of permission to enter a State-operated area; and/or

(2) revocation of any permit already issued; and/or

(3) ejection from the area for one calendar year from the date of discovery; and/or

(4) citation under the provisions of the Fish and Game Code or Title 14 of the California Code of Regulations. A proceeding under (1), (2), (3) or (4) will not preclude the invocation of any other remedy.  
(p) Enforcement of Regulations: These regulations shall be incorporated by reference into and become a part of all permits.
